

Tips and suggestions for listing additional skills!

Looking for ideas and suggestions on types of skills to include in the text box at the bottom of the Skills page? Well, look no further! This textbox gives you the opportunity to: **Describe any additional computer skills or abilities that you are proficient in or regularly use** that may be of interest to potential Hosts.

Also, if you have specialized skills as a result of a hobby that might be beneficial to an industry or research Host, please take a moment to mention them! For example, if you are a certified scuba diver, edit videos or build robots in your spare time, this is a great place to include that information.

Here are some additional computer, lab and other skills that you may consider including if you have them.

Apple Software

- Aperture
- Garage Band
- iDVD
- iMovie
- iWeb
- Keynote
- Logic Pro
- Motion
- Numbers
- Pages

Audio Tools

- Audacity
- Pro Tools
- Sibelius

Cloud Computing

- Google Docs
- Google Earth
- Google Sheets
- Google Slides
- Prezi
- Salesforce

Computer Hardware/Repair

- Arduino
- Microchips
- Raspberry Pi
- Semiconductor

Database

- 4D
- MySQL
- Paradox
- Sybase

Languages/Programming/ Software Development

- ActionScript 3.0
- AJAX
- Apache
- COBOL
- Cocoa
- ColdFusion
- Fortran
- Git
- Junit
- LispWorks
- .NET
- Objective-C
- Pascal
- PROIV

Learning Management Systems

- Moodle
- Schoology

Mapping

- ArcGIS
- GeoMediaPro

Meeting/Collaboration Tools

- GoToMeeting
- Live Meeting
- WebEx

Open Source Technology

- Apache OpenOffice
- GIMP
- LaTeX

Other

- Animoto
- Elements
- FileMaker
- FrameMaker
- QuarkXpress
- Quickbooks
- SAP
- Windows Moviemaker

Web Page Development & Testing/Web Design

- ASP
- CoffeeScript
- Drupal
- Fireworks
- Joomla
- jQuery
- Selenium
- WordPress
